1. Start by holding the handles with extend arms, and press your back/body towards the backrest. Put your leg in a straight position and lower and raise legs. Dip as far down as you can, by bending your arms – still with your knees bent and no ground contact.
2. Grab the bar palms facing forward a shoulderwidth apart. Keep your shoulders back and your core engaged. Move slowly upward until your chin is above the bar, then equally slowly downward.
3. Step up and down and get warmed up by stepping.
